

ENERGY SYSTEMS LABORATORY

HOT AND HUMID CONFERENCE

PROCEEDINGS CATALOG

2011

Contact: rsauser@tamu.edu

This Symposium provides an opportunity to exchange information on technologies, strategies, and programs to improve the efficiency of building systems in hot and humid climates. The program consists of technical presentations and discussions, highlighted by a vision-building plenary session, informative luncheon speakers, and technical sessions with top researchers and practitioners.

For more information, please go to the Hot and Humid website: <http://www.hothumidsymposium.org>
